

### South Central Oil & Propane Tank Usage Policy

South Central Oil & Propane reserves the right to charge an annual usage fee on any tank owned by SCO/PP, where the customer does not purchase a certain amount of propane during the past 12 months. The customer's usage will be measured from May 1<sup>st</sup> through April 30<sup>th</sup> each year.

The rates below are being posted at our office and on our website in May of 2017. They will over-ride any previous rates given to customers verbally or in writing.

The required purchase amount and rental rates are as follows:

If you have a **120 gallon tank**, you must purchase 100 gallons during the 12 month period to avoid a \$65 usage fee.

If you have a **250 gallon tank**, you must purchase 200 gallons during the 12 month period to avoid a \$70 usage fee.

If you have a **325 gallon tank**, you must purchase 300 gallons during the 12 month period to avoid a \$75 usage fee.

If you have a **500 gallon tank**, you must purchase 400 gallons during the 12 month period to avoid a \$80 usage fee.

Again, thank you sincerely for your business.
